DESCRIPTION

The cycle track “münchen venezia” joins pure leisure cycling with the adventure of traversing the Alps from Germany over Austria to Italy. On cycling paths, cycle routes or small side roads you will experience three countries with their various regions and lots of outstanding natural and cultural beauties. “münchen venezia” starts in the capital of Bavaria – Munich – and leads along Bavarian lakes and Tyrolean rivers through the UNESCO world natural heritage – the Dolomites – to Treviso and finally to the gates of the Serenissima – Venice – with its doges palaces and famous canals.

CHARACTERISTICS OF THE ROUTE

The cycling tour from Munich to Venice is a varied tour. The most demanding stages over the Alps (Innsbruck > Brenner) can be shortened by train or bus and the stage from Dobbiaco to Cortina d'Ampezzo leads easily along the cycle path on the old railway trail. The last two days are downhill and flat towards the sea. The tour is suitable for children over 16 years.

DURATION: 9 days / 8 nights or
12 days / 11 nights

A DAY BY DAY ACCOUNT OF THE ROUTE

Day 1: Arrival

Individual arrival at the starting hotel in Munich.

Day 2: Munich – Bad Tölz (approx. 60 km)

You leave Munich along the Isar river. You will cycle past abbeys, through bavarian villages and across the Isar wetland until you reach Bad Tölz, a picturesque old town.

Day 3: Bad Tölz – Schwaz/Jenbach or Maurach (approx. 68 – 77 km)

From Bad Tölz you will follow the Isar river until you reach Lake Sylvensteinsee. Cycling through the Karwendel nature park you pass the german-austrian border arriving to the holiday destination Achensee and its mountain lake Achensee. Go in for a boat trip on the lake. Overnight stay in Schwaz/Jenbach or Maurach (depending on availability).

Day 4: Schwaz/Jenbach or Maurach – Rio di Pusteria (approx. 96 km or approx. 88 km + train)

From Schwaz/Jenbach or Maurach you cycle along the Inn river to Tyrol's capital Innsbruck. Visit the historic city with its famous "Goldenes Dachl" (Golden Roof) or go on an excursion on Mount Isel with its ski-jump or the Tyrol Panorama in reference to the battles under the supreme command of the freedom fighter Andreas Hofer. The demanding part from Innsbruck to the Brenner Pass, border between Austria and Italy and at the same time watershed and cultural axis, will be done by transfer (train or bus). Only a few buildings remind of the former border between the two European countries. From the Brenner Pass you cycle along the old railway track to Vipiteno and further on to Fortezza and Rio di Pusteria.

Day 5: Rio di Pusteria – Villabassa/Dobbiaco (approx. 50 – 55 km)

From Rio di Pusteria a well-built cycle path leads you through the Pustertal valley, passing the Mühlbacher Klause, a former border post. Along the Rienz river you will arrive in Brunico. We suggest a visit of the "Volkskundemuseum" (South Tyrolean Folklore Museum) in Teodone or one of the two Messner Mountain Museums MMM in the castle of Brunico or on the Kronplatz mountain. From Brunico you cycle along the cycling path along the Rienz river to Villabassa or Dobbiaco, where you will spend the night. After having spent a lot of time on your bike until here, we offer you a free pit stop at our shop in Dobbiaco for a check-up on your bike (only for rental bikes).

Day 6: Villabassa/Dobbiaco – Pieve di Cadore (approx. 60 – 65 km)

From Villabassa/Dobbiaco you start on the bike path into the Höhlensteintal valley past Lake Toblacher See and the War cemetery. This area was used as the front during the 1st World War. Shortly afterwards, a unique panoramic view of the rock formation of the Three Peaks ("Drei Zinnen") opens up before you reach Lake Dürrensee. Slightly ascending, the cycle path leads to the border of the two provinces of Bolzano and Belluno. Now you cycle downhill on the former railway track, the valley opens up towards the south and you reach the Dolomites town of Cortina d'Ampezzo with its dreamlike mountain scenery. The path is going steadily downwards for the most part on the old railway track. You will see the Sorapis on the left and located on the right the "Cinque Torri" (Five Towers). You continue on to the south through the Boitetal valley towards Pieve di Cadore.

Day 7: Pieve di Cadore – Conegliano (approx. 80 km)

The new cycling path takes you to Longarone. This town was completely rebuilt in 1963 after a landslide filled the dam above the village and caused a flood. From Longarone you cycle on to Conegliano.

Day 8: Conegliano – Venice mainland/Mestre (approx. 95 km)

You leave the Alps behind and arrive to Treviso, city of waterways and fashion. Every now and then you can already admire villas of the Italian master builder Palladio, who completed his magnificent buildings especially here, in the immediate sphere of influence of the maritime power Venice. Following the Sile river you cycle towards the Adriatic Sea straight to Venice (mainland) where the impressive "Serenissima" can be admired.
